Recommendation letter Pomegranite

To whom it may concern,

On behalf of the German Government and the European Union, GIZ supports ReNOKA, the Government of Lesotho's national integrated catchment management programme. Together, we are rehabilitating and protecting Lesotho's precious land and water resources. To successfully restore degraded areas, stabilise and rehabilitate dongas, and protect wetlands, we need everyone's support. That is why our website informs interested citizens, partners, and media about our work.

Pomegranite created a user-friendly website that helps us convey our messages clearly and appealingly. The Pomegranite team did an outstanding job of listening to our needs, understanding our work, and translating it into easy-to-understand, search engine-friendly content.

Throughout the project, the team was professional, competent, and friendly. They communicated clearly, responded quickly, and found suitable solutions for our specific organisational and technical set-up.

I wholeheartedly recommend working with them. It was a pleasure, and I am very happy with the final result.

Please feel free to contact us should you require any additional information.

Kind regards,

Christina Krause
